

E&E-I Business Management System (BMS) Updates

Last updated 27 Sept 2025

Note: It is the organisation's strategic intent that E&E-I operates to a single ISO 9001, 14001, 45001 and SSiP certified management system as soon as practical.

Until a fully harmonised BMS is available, harmonised content (both owned at an enterprise and E&E-I level) will be uploaded to the CMS BMS and The Amentum Way IMS, and the content it supersedes will be removed.

If contractual arrangements require continued use of legacy/removed BMS/IMS content, this is permitted with approval from the Division's GDBO and the Head of Quality. If in doubt, please speak to your Quality Lead.

Document Purpose

The purpose of this document is to add further E&E-I specific information to the [Enterprise BMS/PPIF Announcements](#) to share how Management System updates affect both the legacy CMS BMS and the legacy Amentum Way IMS. **Please refer to the table overleaf for more information.**

Amentum Certified Management Systems

Until iCMS and legacy Amentum are utilising the same IT systems, E&E-I employees should access ISO certified BMS/IMS content using the links below. This will take you to both legacy content that has not yet been harmonised **and** harmonised content (both enterprise-owned and E&E-I-owned content).

- iCMS - [iCMS Business Management System Portal](#)
- Legacy Amentum UK - [The Amentum Way IMS](#)
- iCMS E&E Australia - [E&E Australia – Quality SharePoint Site](#)

How Do I Know Which Content Has Been Harmonised?

Harmonised BMS processes can be identified via the document number*. Examples include:

- Documents numbered **AM-xxx-xx-xxxx-AM** are owned at the enterprise-level and are applicable to the whole of Amentum
- Documents numbered **EE-xxx-xx-xxxx-30** are applicable to the whole of the E&E-I Business Line
- Documents numbered **EE-xx-xx-xxxx-31** are applicable to a specific Division only e.g. E&E Australia

*Document numbers are generated in accordance with [AM-QUA-PL-0900-AM, Documented Information Management](#).

Getting Help

If you have any questions or require support, please speak to your Quality Leads in the first instance:

- E&E-I Business Line - Karen Lindsey
- D&AS Division - Wayne Foster
- Energy and TC&I Divisions - Gareth Holland
- Environment Division – George Brownless
- E&E Australia Division - Susan Mohr

If you require any legacy content that has been withdrawn/superseded, please contact Michelle.Lonsdale@global.amentum.com
